Parryware Pipes & Fittings

Parryware is a name that has stood for trust and quality in Indian homes for over six decades. With a rich legacy of innovation in bathroom and plumbing solutions, Parryware has continuously evolved to meet the changing needs of the nation.

Building on this strong foundation, Parryware ventured into the plumbing solutions segment with Parryware Pipes & Fittings, offering a complete range of products designed for modern construction requirements. Since its launch, the brand has expanded its footprint across Tamil Nadu, Eastern markets, and later into North and West regions, establishing a strong presence across India.

Parryware Pipes & Fittings are manufactured at advanced facilities in Alwar and Chennai, following stringent quality control processes to ensure durability, safety, and consistent performance. Each product is engineered for easy installation and

reliable use in hot and cold water applications, drainage systems, and concealed plumbing solutions.

The product portfolio includes UPVC, CPVC, SWR, PVC pipes and fittings, concealed fittings, ball valves, and allied plumbing accessories, delivering end-to-end plumbing solutions for residential, commercial, and infrastructure projects.

Driven by innovation and guided by trust, Parryware Pipes & Fittings is committed to shaping the future of India's plumbing systems by providing stronger, safer, and longer-lasting solutions for every home and building.

True to its legacy, Parryware continues to grow from strength to strength - creating value for customers and building confidence with every connection.

Quality Meets Excellence

Parryware CPVC offer the perfect plumbing solution with superior quality and international standards.

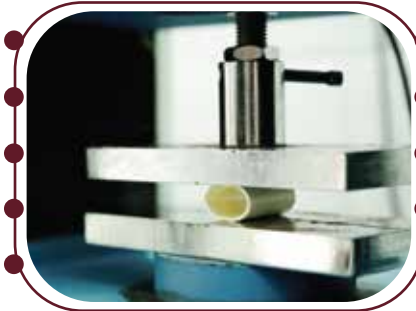

HYDROSTATIC PRESSURE TEST

THERMOCYCLIC TEST

BALL VALVE REDUCING TEST

UNIVERSAL TENSILE TEST

OPACITY TEST

DENSITY TEST

IMPACT TEST

REVERSION OIL BATH TEST

VICAT SOFTENING POINT TEST

Why is Parryware CPVC the best choice for quality par excellence?

PARRYWARE DELIVERS QUALITY YOU CAN TRUST

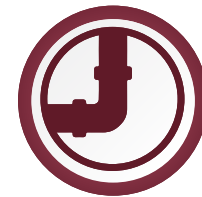

We ensure safe potable water by conducting thorough water tests on all our CPVC products, ensuring that harmful chemicals like lead, tin, and mercury do not affect one's health.

We strictly follow the standards set by international organizations like WHO and are certified safe by the Central Institute of Plastics Engineering & Technology.

AUTO DE-GATING

Auto De-Gating eliminates the need for manual removal of runner gates, making it highly beneficial.

- The absence of runner gates ensures a smooth surface finish.
- It minimizes human error and plastic wastage by eliminating manual cutting.
- A smooth surface ensures easy installation, convenience, and safety for plumbers.

It improves withstanding capacity by up to 5%, delivering better results in pressure tests.

POWER FLOW

CPVC materials do not support combustion; therefore, they cannot burn without an external fuel source.

Offers the widest range of pipes and fittings, with sizes up to 2 inches.

Superior quality ensures potable water remains pure and safe.

Go ahead and make the right choice for your home's plumbing system with Parryware's superior-quality CPVC pipes and fittings.

Parryware has partnered with one of the leading manufacturers of CPVC resin in the world and has perfected the compound mixture. Chlorinated Polyvinyl Chloride (CPVC) has been the most popular choice of material for potable water supply for more than 50 years.

SWR FITTINGS

Quality Meets Excellence

Why SWR Pipe & Fittings?

- Prefitted Rings
- Quick & Easy Installation
- Strong & Durable
- 100% Leak-Proof
- High-Pressure Resistant
- Sustains Thermal Contraction and Expansion.

As a leading manufacturer of bathroom products in India, Parryware has garnered vast experience in understanding the plumbing system in India.

Our new range of SWR pipes and fittings are designed to meet international quality standards as they are manufactured at state of the art facilities with advanced machinery for superior quality.

The new range of pipes and fittings launched by Parryware are designed with a critical understanding of Indian plumbing system while offering contemporary solutions to address all your needs.

- Impact Resistance
- Premium Quality
- High Rigidity
- UV resistant

The wide range of Parryware's SWR pipes and fittings, along with unique features such as Easy Fit Ring, renders the best solution for building drainage systems.

Joints can be made without the use of solvent cement and can be easily reopened later for any adjustments if required.

In order to assure you of the originality of our products, our SWR pipes are provided with a hologram and a QR code.

The hologram on Parryware's SWR pipes indicates authenticity of the product and ensures that we have delivered the best possible quality. Additionally, every SWR pipe comes with a QR code which instantly allows you to access information about the pipe.

Parryware SWR Pipes & Fittings

Parryware's SWR pipes and fittings are designed to accommodate Power Flow for optimal performance. The dynamic Power Flow system is built to endure high flow rates while maintaining low friction. High flow rates are achieved by the smooth interiors of Parryware's SWR pipes, which also lowering friction in the flow. The low friction value of these pipes result in increased water flow. The smooth surface of the pipes effectively prevents deposit and the buildup of mineral waste. As a result, there is no scaling, depositions, and choking in Parryware's SWR pipes. Ultimately, the Power Flow system expands the functionality of Parryware's SWR pipes by preventing corrosion and enhancing performance.

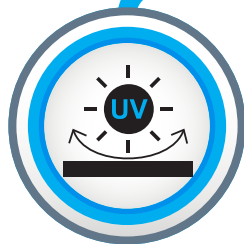

SWR pipes and fittings make leak-proof joints that are maintenance and replacement free.

SWR pipes and fittings are non-reactive to most acids, effluents Alkalis, minerals salts, etc.

UV stabilized to protect from direct sunlight while being operational.

PVC-U is a non-conductor of electricity and therefore is not subject to galvanic or electrolytic action.

Corrosion and rust-proof which confirms longer durability of the product.

High degree of accuracy in manufacturing ensures perfect dimensional control.

SWR pipes and fittings withstand high flow rates, and due to their smooth surface, there is no scaling, deposition, or choking.

Light weight of the product facilitates easy and inexpensive transport and installation.

Rigid and sturdy build for durability provides long-lasting resistance to heat and corrosion.

PVC FITTINGS

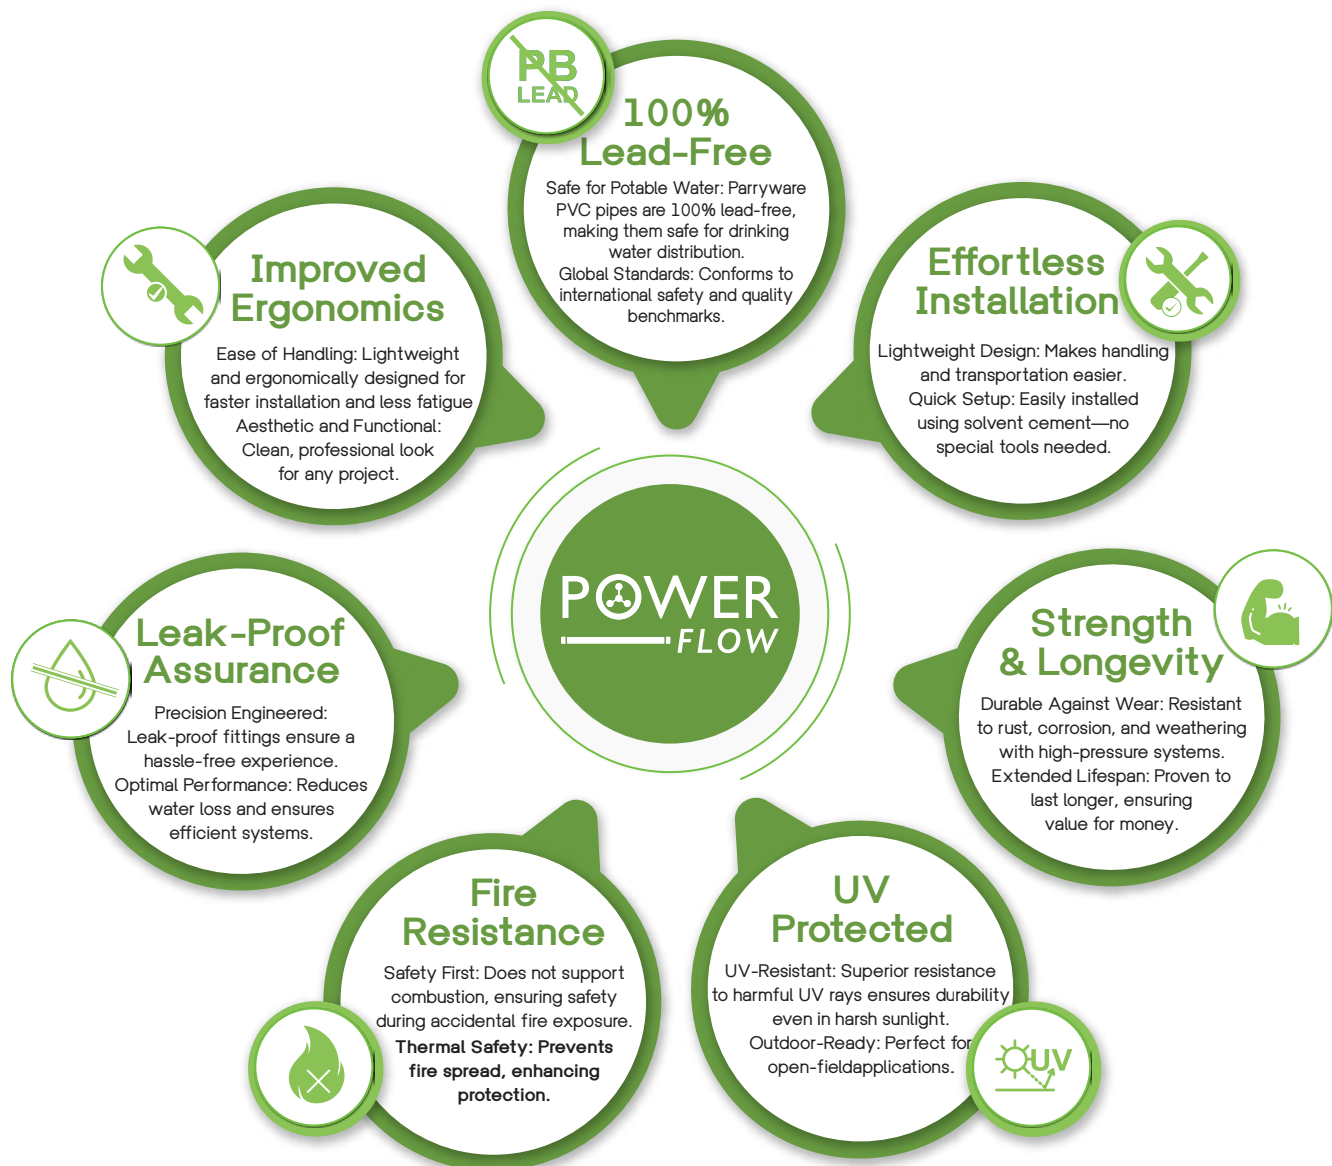

Quality Meets Excellence

Parryware PVC Pipes and Fittings

Parryware PVC pipes and fittings are designed with the Power Flow to ensure superior performance and smooth inner surface, ensure water flows easily and quickly, with minimal friction and preventing issues like scaling, blockages, and leakages.

With features like lead-free composition and UV resistance, Parryware PVC pipes are safe, durable, built to last, and maintenance-free solutions, making them the ideal choice for all plumbing needs.

WHY IS PARRYWARE PVC THE BEST CHOICE FOR QUALITY PAR EXCELLENCE?

Parryware Solidrain

Parryware SolidDrain Underground Drainage Pipes are designed to handle high external loads, continuous wastewater flow, and harsh underground conditions while ensuring structural stability and leak-free performance.

CHEMICAL & NON CORROSION RESISTANT

Ideal for sewage, effluent, and waste disposal systems.

HIGH RING STIFFNESS

Withstands soil pressure and external load effectively.

IMPACT RESISTANT

Handles handling, installation, and backfilling stress.

LEAK-PROOF JOINTING SYSTEM

Prevents infiltration and exfiltration, ensuring hygienic drainage.

LONG-TERM STRUCTURAL STABILITY

Maintains shape and performance throughout service life.

RODENT PROOF

Enables high flow rates and minimizes clogging.

Core Strength for Borewells

Parryware Power Core

Parryware BoreCore Casing Pipes are engineered to provide strong borewell wall support, prevent soil collapse, and protect water sources from contamination, ensuring long-lasting borewell integrity.

HIGH IMPACT STRENGTH

Resists damage during drilling and installation.

EXCELLENT COLLAPSE RESISTANCE

Maintains borewell structure under soil and groundwater pressure.

CORROSION & CHEMICAL RESISTANT

Suitable for diverse soil and water conditions.

UNIFORM WALL THICKNESS

Ensures consistent strength and dimensional accuracy.

LIGHTWEIGHT & EASY INSTALLATION

Facilitates smooth lowering and alignment in borewells.

EXTENDED SERVICE LIFE

Designed for reliable performance over years of operation.
