THE NEXT GENERATION OF HEALTHY KITCHEN APPLIANCES

HEALTHY CHOICES MADE EASIER

Driven by consumer insights from kitchens across India, we're extending our legacy of performance into health-first kitchen solutions. Introducing a thoughtfully engineered range cold press juicers that maximize juice and preserve nutrients, high-performance nutri blenders for silky smoothies and fine grinding, portable blenders built for life on-the-go, and precision air fryers that deliver crispy, low-oil cooking food. Because healthy choices should be simple, fast and reliable.

Our commitment to delivering exceptional kitchen performance now extends into nutrition-first appliances because healthy choices should be simple, fast and reliable. The Nutri Blender is engineered with Maxi Blend technology and Pro Blend technology for consistently smooth, lump-free textures, whether you're making fiber-rich smoothies, nut milks or grinding dry ingredients. Paired with our durable, food-grade jars and smart jar designs, this blender gives you professional results at home.

Bringing nutrition to the forefront, our Cold-Press Juicer uses Nutri Fresh technology for slow, low-heat extraction that preserves up to 90% of vitamins and nutrients in every drop. Built for higher yield, minimal oxidation and easy pulp ejection, it helps you get more from your produce while keeping cleanup simple and quick.

Rounding out the collection, the Air fryer features Pro Heating technology for precise, even heat distribution and perfectly crispy results with minimal oil. With one-touch presets, family-friendly capacity and easy-clean baskets, it makes healthier everyday cooking effortless. Together with thoughtful accessories like Blend-and-Carry jars and cool-to-touch adapters, our new range covers a wide spectrum of consumer needs delivering performance, convenience and value.
