Parryware Pipes & Fittings

www.parryware.in/pipes

Parryware, India's leading brand for bathroom products, started its journey more than 60 years ago and has been defining the styles of changing Indian bathrooms since then. From a humble start to the present manufacturing process across eight manufacturing units, it has strategically focused on production across the country and is distributed through a vast network of retail partners, making the products available in every nook and corner of the country

The brand boasts of a wide range of products which includes vitreous china sanitary wares, faucets & fittings, bathtubs, whirlpools, bathroom furniture, electronic flushing systems, plastic and concealed cisterns, toilet seats, Accessories, Water Heaters and kitchen sinks.

Parryware is now focusing on changing the face of the plumbing system in India. Taking a step ahead from its vast range of products, Parryware has launched a brand new range of pipes and fittings for all your plumbing needs.

The product range offers durable, safe and easy installation plumbing system for hot and cold water applications. All products will go through a stringent quality check protocol, thus, meeting the highest safety standards.

True to its legacy, Parryware continues to progress from strength to strength and will steer ahead as a provider of complete and contemporary bathroom and plumbing solutions for India.

Quality Meets Excellence

CPVC

Parryware CPVC offer the perfect plumbing solution with superior quality and international standards.

- HYDROSTATIC PRESSURE TEST
- THERMOCYCLIC TEST
- BALL VALVE REDUCING TEST
- UNIVERSAL TENSILE TEST
- OPACITY TEST

- DENSITY TEST
- IMPACT TEST
- REVERSION OIL BATH TEST
- VICAT SOFTENING POINT TEST

Why is Parryware CPVC the best choice for quality par excellence?

PARRYWARE DELIVERS QUALITY YOU CAN TRUST

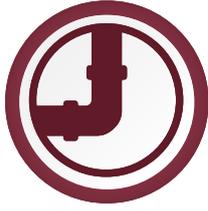

We ensure safe potable water by conducting thorough water tests on all our CPVC products, ensuring that harmful chemicals like lead, tin, and mercury do not affect one's health.

We strictly follow the standards set by international organizations like WHO and are certified safe by the Central Institute of Plastics Engineering & Technology.

AUTO DE-GATING

Auto De-Gating eliminates the need for manual removal of runner gates, making it highly beneficial.

- **The absence of runner gates ensures a smooth surface finish.**
- It minimizes human error and plastic wastage by eliminating manual cutting.
- A smooth surface ensures easy installation, convenience, and safety for plumbers.
- It improves withstanding capacity by up to 5%, delivering better results in pressure tests.

POWER FLOW

CPVC materials do not support combustion; therefore, they cannot burn without an external fuel source.

Offers the widest range of pipes and fittings, with sizes up to 2 inches.

Superior quality ensures potable water remains pure and safe.

Parryware has partnered with one of the leading manufacturers of CPVC resin in the world and has perfected the compound mixture.

Chlorinated Polyvinyl Chloride (CPVC) has been the most popular choice of material for potable water supply for more than 50 years.

Go ahead and make the right choice for your home's plumbing system with Parryware's superior-quality CPVC pipes and fittings.

Parryware

Pipes & Fittings
STRONGER PIPES, LONGER LIFE

uPVC Pipes & Fittings

Lead Free

Easy Installation

Lowest Bacterial Growth

No Leakage

Odourless

Non Corrosive

Fire Resistant

ASTM D 1785
uPVC PIPES

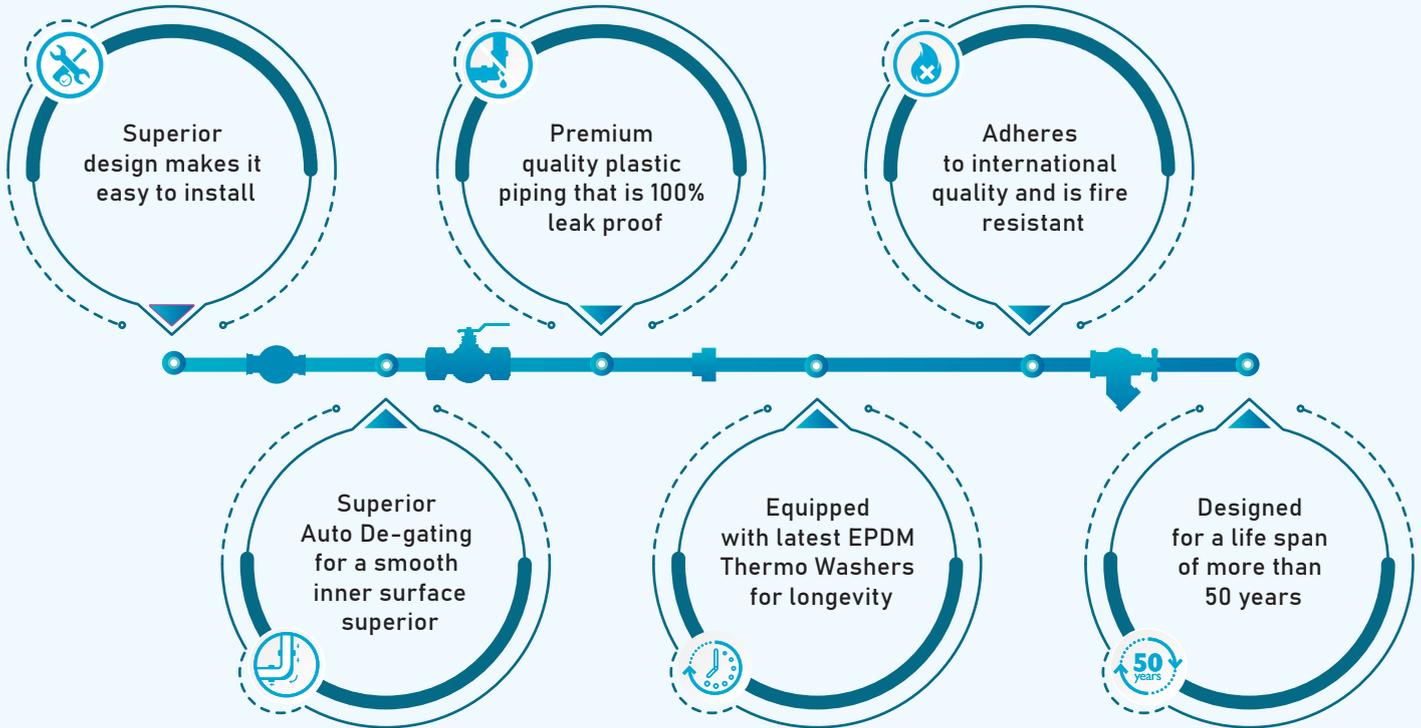

ASTM D 2467
uPVC FITTINGS

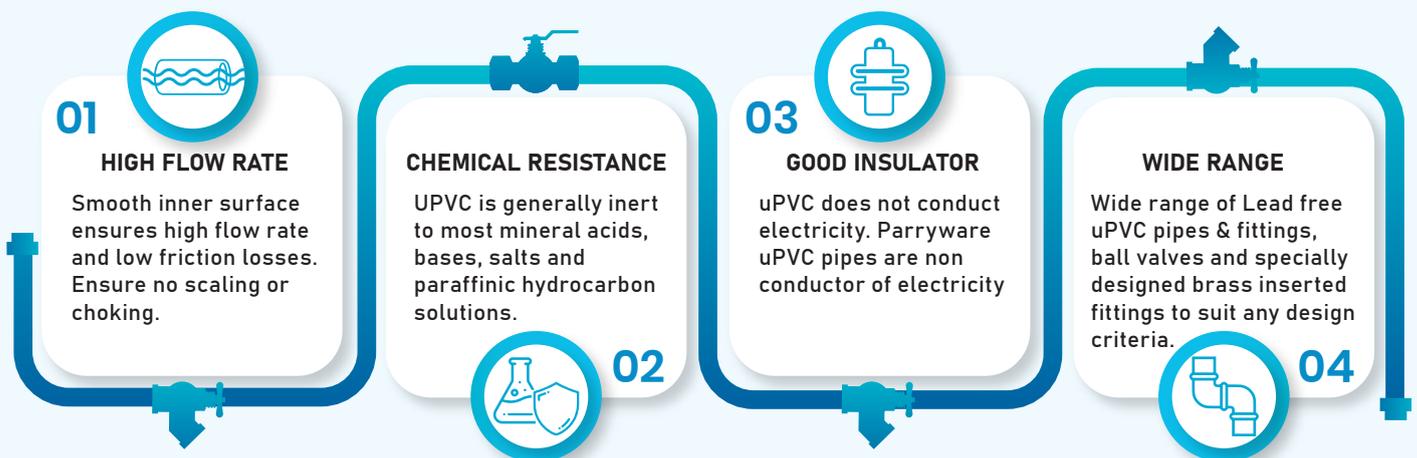

Quality Meets Excellence

Why is Parryware uPVC the best choice for quality par excellence?

SWR PIPES

SWR FITTINGS

Quality Meets Excellence

Why SWR Pipe & Fittings?

- Prefitted Rings
- Quick & Easy Installation
- Strong & Durable
- 100% Leak-Proof
- High-Pressure Resistant
- Sustains Thermal Contraction and Expansion.

As a leading manufacturer of bathroom products in India, Parryware has garnered vast experience in understanding the plumbing system in India.

Our new range of SWR pipes and fittings are designed to meet international quality standards as they are manufactured at state of the art facilities with advanced machinery for superior quality.

The new range of pipes and fittings launched by Parryware are designed with a critical understanding of Indian plumbing system while offering contemporary solutions to address all your needs.

- Impact Resistance
- Premium Quality
- High Rigidity
- UV resistant

The wide range of Parryware's SWR pipes and fittings, along with unique features such as Easy Fit Ring, renders the best solution for building drainage systems.

Joints can be made without the use of solvent cement and can be easily reopened later for any adjustments if required.

In order to assure you of the originality of our products, our SWR pipes are provided with a hologram and a QR code.

The hologram on Parryware's SWR pipes indicates authenticity of the product and ensures that we have delivered the best possible quality. Additionally, every SWR pipe comes with a QR code which instantly allows you to access information about the pipe.

What is Power Flow?

Parryware's SWR pipes and fittings are designed to accommodate Power Flow for optimal performance. The dynamic Power Flow system is built to endure high flow rates while maintaining low friction. High flow rates are achieved by the smooth interiors of Parryware's SWR pipes, which also lower friction in the flow. The low friction value of these pipes results in increased water flow. The smooth surface of the pipes effectively prevents deposit and the buildup of mineral waste. As a result, there is no scaling, depositions, and choking in Parryware's SWR pipes. Ultimately, the Power Flow system expands the functionality of Parryware's SWR pipes by preventing corrosion and enhancing performance.

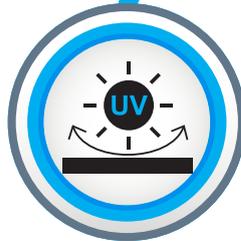

SWR pipes and fittings make leak-proof joints that are maintenance and replacement free.

SWR pipes and fittings are non-reactive to most acids, effluents, Alkalis, minerals, salts, etc.

UV stabilized to protect from direct sunlight while being operational.

PVC-U is a non-conductor of electricity and therefore is not subject to galvanic or electrolytic action.

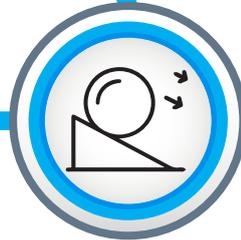

Corrosion and rust-proof which confirms longer durability of the product.

High degree of accuracy in manufacturing ensures perfect dimensional control.

SWR pipes and fittings withstand high flow rates, and due to their smooth surface, there is no scaling, deposition, or choking.

Light weight of the product facilitates easy and inexpensive transport and installation.

Rigid and sturdy build for durability provides long-lasting resistance to heat and corrosion.

PVC FITTINGS

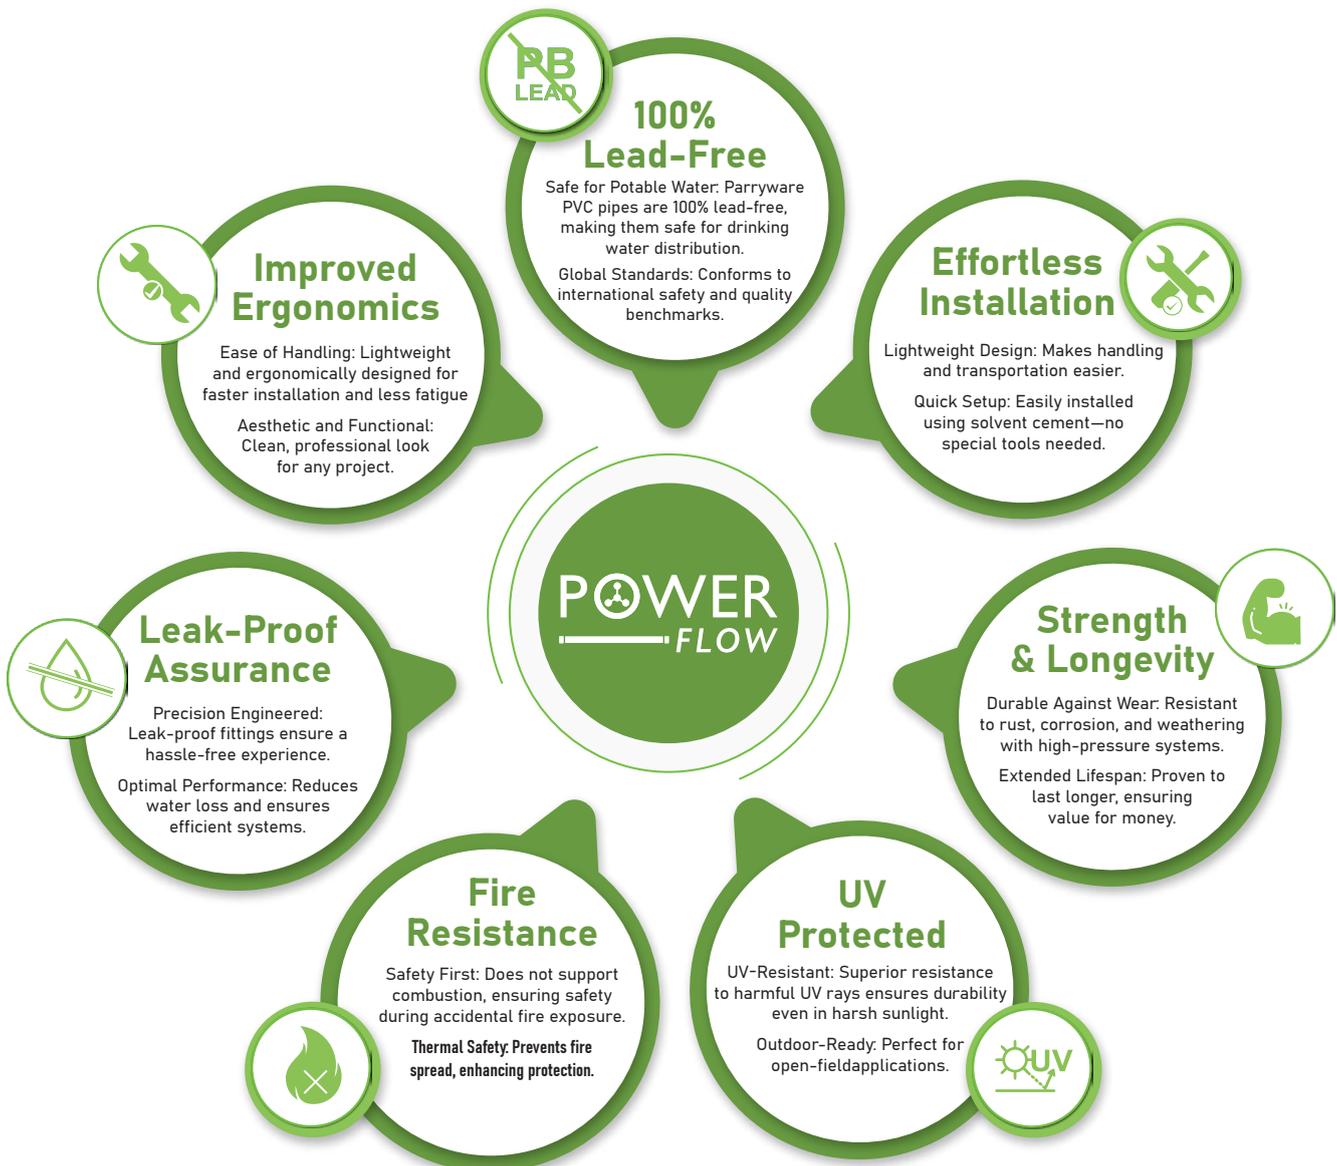

Quality Meets Excellence

What is Power Flow?

Parryware PVC pipes and fittings are designed with the Power Flow to ensure superior performance and smooth inner surface, ensure water flows easily and quickly, with minimal friction and preventing issues like scaling, blockages, and leakages.

With features like lead-free composition and UV resistance, Parryware PVC pipes are safe, durable, built to last, and maintenance-free solutions, making them the ideal choice for all plumbing needs.

WHY IS PARRYWARE PVC THE BEST CHOICE FOR QUALITY PAR EXCELLENCE?
